INDEPENDENT AUDITOR'S REPORT

To the Estill County Board of Education and
State Committee for School District Audits
Irvine, Kentucky

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Estill County School District as of and for the year ended June 30, 2014, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States and the audit requirements prescribed by the Kentucky State Committee for School District Audits in the Auditor Responsibilities and State Compliance Requirements sections contained in the Kentucky Public School Districts' Audit Contract and Requirements. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Estill County School District, as of June 30, 2014, and the respective changes in financial position, and, where applicable, cash flows, and the respective budgetary comparison for the General Fund and Special Revenue Fund thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis information as listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Estill County School District's basic financial statements. The additional supplementary information, as listed in the table of contents, are presented for purposes of additional analysis and are not a required part of the basic financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is also not a required part of the basic financial statements.

The additional supplementary information and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the additional supplementary information and the schedule of expenditures of federal awards are fairly stated in all material respects in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated November 10, 2014, on our consideration of the Estill County School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant

agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Estill County School District's internal control over financial reporting and compliance.

ESTILL COUNTY PUBLIC SCHOOL DISTRICT – IRVINE, KENTUCKY
MANAGEMENT DISCUSSION AND ANALYSIS (MD&A)
Year ended June 30, 2014

As management of the Estill County School District, we offer readers of the District’s financial statements this narrative overview and analysis of the financial activities of the District for the fiscal year ended June 30, 2014. We encourage readers to consider the information presented here in conjunction with additional information found within the body of the audit.

FINANCIAL HIGHLIGHTS

1. The beginning cash balance for the General Fund was \$3,745,513 and ending cash balance was \$3,343,303.
2. The General Fund had \$17.3 million in revenue, which primarily consisted of the SEEK property, property, utility and motor vehicle taxes. There were \$17.8 million in expenditures in the General Fund.
3. The district gave a 1% raise in salaries to certified and classified employees in addition to grade and step raises.
4. The Board utilized the option provided in House Bill 269 to use Capital Outlay fund for insurance expenditures in the amount of \$212,085. This is the second year the district has utilized this option.
5. The Board levied property tax rates of 45.5 for real and tangible property. This includes .2 for exonerations. Motor vehicle and watercraft tax remained at 54.8. The board continues to add from the general fund an additional nickel to the building fund. The district also continued the 3% utility tax.
6. Bonds were sold in November 2013 to finance a roof, restroom/locker room renovation at the High School. The roof project was completed and the restroom/locker-room is nearing completion.
7. This was the first year our district qualified for the Community Option of the federal school food program. This allows all students, regardless of income, to eat free breakfast and lunch. The Board hopes that this will remove a barrier for many of our students.
8. The Winter Guard Program was added as an extracurricular activity at the High School.
9. The district was assessed \$430,175 by Kentucky School Boards Insurance Trust for underfunded insurance in past years. Payment was not required prior to the end of the fiscal year 2013-2014.

OVERVIEW OF FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to the District’s basic financial statements. These statements are organized so that the reader can understand Estill County School District as a financial whole, an entire operating entity, in a manner similar to a private-sector business. This annual report consists of three components, A) management’s discussion and analysis (this section), B) the basic financial statements, and C) required and other supplemental information. The statements then proceed to provide an increasingly detailed look at specific financial activities. The District’s basic financial statements comprise three components: (1) district-wide financial statements, (2) fund financial statements, and (3) notes to the financial

ESTILL COUNTY PUBLIC SCHOOL DISTRICT – IRVINE, KENTUCKY
MANAGEMENT DISCUSSION AND ANALYSIS (MD&A)
Year ended June 30, 2014

statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide Financial Statements: The government-wide financial statements are designed to provide readers with a broad overview of the District’s finances, in a manner similar to a private-sector business.

The statement of net position presents information on all of the District’s assets and liabilities and deferred inflows and outflows, with the difference between them being reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the district is improving or deteriorating.

The statement of activities presents information showing how the District’s net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing, of related cash flows. Thus, revenues and expenditures are reported in this statement for some items that will only result in cash flows in future fiscal periods.

The government-wide financial statements outline functions of the District that are principally supported by property taxes and intergovernmental revenues (governmental activities). The governmental activities of the District include instruction, support services, operation and maintenance of plant, student transportation and operation of non-instructional services. Fixed assets and related debt is also supported by taxes and intergovernmental revenues.

The government-wide financial outline functions of the District that is principally supported by property taxes and intergovernmental revenues (governmental activities). The governmental activities of the District include instruction, support services, operation and maintenance of plant, student transportation and operation of non-instructional services. Fixed assets and related debt is also supported by taxes and intergovernmental revenues.

Fund Financial Statements: A fund is a grouping related account that is used to maintain control over resources that have been segregated for specific activities or objectives. This is a state mandated uniform system and chart of accounts for all Kentucky public school districts utilizing the MUNIS administrative software. The district uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the District can be divided into three categories: governmental, proprietary funds and fiduciary funds. Fiduciary funds are trust funds established by benefactors to aid in student education, welfare and teacher support. The only proprietary funds are our food service operations. All other activities of the district are included in the governmental funds. The basic governmental funds financial statement can be found on pages of this report.

Notes to the Financial Statements: The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages of this report.

ESTILL COUNTY PUBLIC SCHOOL DISTRICT – IRVINE, KENTUCKY
MANAGEMENT DISCUSSION AND ANALYSIS (MD&A)
Year ended June 30, 2014

GOVERNMENT-WIDE FINANCIAL ANALYSIS

Net position may serve over time as a useful indicator of a government’s financial position. In the case of Estill County Schools, assets plus deferred outflows exceeded liabilities by \$15,416,193 for Governmental Activities and \$317,188 for Business Type Activities as of June 30, 2014.

The largest portion of the District’s net position reflects its investment in capital assets (e.g., land and improvements, buildings and improvements, vehicles, furniture, equipment, and construction in progress); less any related debt used to acquire those assets that are still outstanding. The District uses these capital assets to provide services to its students; consequently, these assets are not available for future spending. Although the District’s investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

The District’s financial position is the product of several financial transactions including the net results of activities, the acquisition and payment of debt, the acquisition and disposal of capital assets and the depreciation of capital assets.

ESTILL COUNTY PUBLIC SCHOOL DISTRICT – IRVINE, KENTUCKY
MANAGEMENT DISCUSSION AND ANALYSIS (MD&A)
Year ended June 30, 2014

Budgetary Implications

In Kentucky, the public school fiscal year is July 1 to June 30; other programs, i.e., some federal programs operate on a different fiscal calendar, but are reflected in the district’s overall budget. By law, the budget must have a minimum 2.0% contingency in the Working Budget. The contingency was above the minimum for 2014. The district continues to leave the two unfunded days in the instructional calendar. This continues to have an impact on district funds.

Issues that continue to impact future budgets include:

- . Federal funding not maintaining the pace of mandated pay increases, insurance, and retirement costs
- . Insufficient funding of the state transportation formula
- . Loss of local funding due to the 4% cap on increases in property taxes, which in turn results in a penalty to the District in the state SEEK funding formula.

Questions regarding this report should be directed to the Superintendent, Mr. Bert Hensley or the Director of Finance/Treasurer, Ms. Angela D. Howell at (606) 723-2181 or by mail at P.O. Box 930, Irvine, KY 40336

**Reconciliation of the Statement of Revenues, Expenditures, and Changes in Fund Balances of
 Governmental Funds to the Statement of Activities**
 Year ended June 30, 2014

Net change in total fund balances per fund financial statements	\$	(387,946)
<p>Amounts reported for governmental activities in the statement of activities are different because:</p>		
<p>Capital outlays are reported as expenditures in this fund financial statement because they use current financial resources, but they are presented as assets in the statement of activities and depreciated over their estimated economic lives. The difference is the amount by which capital outlays exceeds depreciation expense for the year.</p>		839,423
<p>Cost of issuance of bonds are capitalized and amortized over the life of the bond.</p>		(13,568)
<p>Bond and capital lease payments are recognized as expenditures of current financial resources in the fund financial statement but are reductions of liabilities in the statement of net position.</p>		(156,369)
<p>Generally, expenditures recognized in this fund financial statement are limited to only those that use current financial resources, but expenses are recognized in the statement of activities when they are incurred.</p>		
<p>Accrued interest payable</p>		8,284
<p>Noncurrent portion of accumulated sick leave</p>		(96,583)
		(96,583)
Change in net position of governmental activities	\$	<u>193,242</u>

ESTILL COUNTY SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
For the year ended June 30, 2014

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Reporting Entity

The Estill County Board of Education (“Board”), a five-member group, is the level of government, which has oversight responsibilities over all activities related to public elementary and secondary school education within the jurisdiction of the Estill County Board of Education (“District”). The District receives funding from Local, State and Federal government sources and must comply with the commitment requirements of these funding source entities. However, the District is not included in any other governmental “reporting entity” as defined in Section 2100-Codification of Governmental Accounting and Financial Reporting Standards. Board members are elected by the public and have decision making authority, the power to designate management, the responsibility to develop policies, which may influence operations and primary accountability for fiscal matters.

The District, for financial purposes, includes all of the funds relevant to the operation of the Estill County Board of Education. The financial statements presented herein do not include funds of groups and organizations, which although associated with the school system, have not originated within the District itself such as Band Boosters, Parent-Teacher Associations, etc.

The financial statements of the District include those of separately administered organizations that are controlled by or dependent on the Board. Control or dependence is determined on the basis of budget adoption, funding and appointment of the respective governing board.

Based on the foregoing criteria, the financial statements of the following organization are included in the accompanying financial statements:

Estill County Board of Education Finance Corporation

The Board authorized establishment of the Estill County Board of Education Finance Corporation a non-stock, non-profit corporation pursuant to Section 162.385 of the School Bond Act and Chapter 273 and Section 58.180 of the Kentucky Revised Statutes (the “Corporation”) to act as an agency of the District for financing the costs of school building facilities. The Board of Directors of the Corporation shall be the same persons who are at any time the members of the Board of Education of the Estill County Board of Education.

Basis of Presentation

Government-wide Financial Statements – The statement of net Position and the statement of activities display information about the District as a whole. These statements include the financial activities of the primary government, except for fiduciary funds. The statements distinguish between those activities of the District that are governmental and those that are considered business-type activities.

The government-wide statements are prepared using the economic resources measurement focus. This is the same approach used in the preparation of the proprietary fund financial statements but differs from

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

the manner in which governmental fund financial statements are prepared. Governmental fund financial statements therefore include reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

The government-wide statement of activities presents a comparison between direct expenses and program revenues for each segment of the business-type activities of the District and for each function or program of the District's governmental activities. Direct expenses are those that are specifically associated with a service, program or department and are therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues are presented as general revenues of the District, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each business segment or governmental function is self-financing or draws from the general revenues of the District.

Fund Financial Statements – Fund financial statements report detailed information about the District. The focus of governmental and enterprise fund financial statements is on major funds rather than reporting funds by type. Each major fund is presented in a separate column. Non-major funds are aggregated and presented in a single column. Fiduciary funds are reported by fund type.

The accounting and reporting treatment applied to a fund is determined by its measurement focus. All governmental fund types are accounted for using a flow of current financial resources measurement focus. The financial statements for governmental funds are a balance sheet, which generally includes only current assets and current liabilities and a statement of revenues, expenditures and changes in fund balances, which reports on the changes in net total assets. Proprietary funds and fiduciary funds are reported using the economic resources measurement focus. The statement of cash flows provides information about how the District finances and meets the cash flow needs of its proprietary activities.

The District has the following funds:

I. Governmental Fund Types

(A) General Fund

The General Fund is the main operating fund of the District. It accounts for financial resources used for general types of operations. This is a budgeted fund, and any fund balances are considered as resources available for use. This is always a major fund of the District.

(B) Special Revenue (Grant) Fund

The Special Revenue (Grant) Fund accounts for proceeds of specific revenue sources (other than expendable trust funds or major capital projects) that are legally restricted to disbursements for specified purposes. It includes federal financial programs where unused balances are returned to the grantor at the close of specified project periods as well as the state grant programs. Project accounting is employed to maintain integrity for the various sources of funds. The separate projects of federally-funded grant

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

programs are identified in the Schedule of Expenditures of Federal Awards included in this report. This is a major fund of the District.

(C) Capital Project Funds

Capital Project Funds are used to account for financial resources to be used for the acquisition or construction of major capital facilities and equipment (other than those financed by Proprietary Fund).

SEEK Capital Outlay Fund

The Support Education Excellence in Kentucky (SEEK) Capital Outlay Fund receives those funds designated by the state as Capital Outlay Funds and is restricted for use in financing projects as identified in the District's facility plan.

Building (FSPK) Fund

The Facility Support Program of Kentucky (FSPK) accounts for funds generated by the building tax levy that is required to participate in the School Facilities Construction Commission's construction funding and state matching funds, where applicable. Funds may be used for projects identified in the District's facility plan. This is a major fund of the district.

Construction Fund

The Construction Fund accounts for proceeds from sale of bonds and other revenues to be used for authorized construction and/or remodeling.

(D) Debt Service Fund

The Debt Service Fund is used to account for the accumulation of resources for, and the payment of, general long-term debt principal and interest and related cost; and for the payment of interest on general obligation notes payable, as required by Kentucky Law. This is a major fund of the District.

(E) Permanent Fund

The Permanent Fund reports resources that are legally restricted to the extent that only earnings, and not principal, may be used for purposes that support the reporting governments programs.

II. Proprietary Funds (Enterprise Funds)

Food Service Fund

The School Food Service Fund is used to account for school food service activities, including the National School Lunch Program, which is conducted in cooperation with the U.S. Department of Agriculture (USDA). Amounts have been recorded for in-kind contribution of commodities from the USDA. The Food Service Fund is a major fund of the district.

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

The District applies all GASB pronouncements to proprietary funds.

III. Fiduciary Fund Types

Agency Funds

The Agency Fund accounts for activities of student groups and other types of activities requiring clearing accounts. These funds are accounted for in accordance with “Accounting Procedures for Kentucky School Activity Funds.”

Trust Funds

Trust Funds report resources that are contributed by various people, and organizations to be spent for students for purposes that support the reporting governments programs.

Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Proprietary and fiduciary funds also use the accrual basis of accounting.

Revenues – Exchange and Non-exchange Transactions – Revenues resulting from exchange transactions, in which each party receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenues are recorded in the fiscal year in which the resources are measurable and available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the District, available means expected to be received within sixty days of the fiscal year-end. Non-exchange transactions, in which the District receives value without directly giving equal value in return, include property taxes, grants, entitlements and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resource are required to be used or the fiscal year when use is first permitted, matching requirements, in which the District must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the District on a reimbursement basis, On a modified accrual basis, revenues from non-exchange transactions must also be available before it can be recognized.

Unearned revenue – Unearned revenue arises when assets are recognized before revenue recognition criteria have been satisfied.

Grants and entitlements received before the eligibility requirements are met are recorded as unearned revenue.

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

Expenses/Expenditures – On the accrual basis of accounting, expenses are recognized at the time they are incurred. The fair value of donated commodities used during the year is reported in the statement the revenues, expenses, and changes in net Position as an expense with a like amount reported as donated commodities revenue. Unused donated commodities are reported as unearned revenue.

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation, are not recognized in governmental funds.

Property Taxes

Property Tax Revenues – Property taxes are levied each September on the assessed value listed as of the prior January 1, for all real and personal property in the county. The billings are considered due upon receipt by the taxpayer; however, the actual date is based on a period ending 30 days after the tax bill mailing. Property taxes collected are recorded as revenues in the fiscal year for which they were levied. All taxes collected are initially deposited in the General Fund and then transferred to the appropriate fund.

The property tax rates (including exonerations) assessed for the year ended June 30, 2014, to finance the General Fund operations were \$.455 per \$100 valuation of real property, \$.455 per \$100 valuation for business personal property and \$.548 per \$100 valuation for motor vehicles.

The District levies a utility gross receipts license tax in the amount of 3% of the gross receipts derived from the furnishings, within the county, of telephonic and telegraphic communications services, cablevision services, electric power, water, and natural, artificial and mixed gas.

Capital Assets

General capital assets are those assets not specifically related to activities reported in the proprietary funds. These assets generally result from expenditures in the government funds. These assets are reported in the government activities column of the government-wide financial statement of net Position but are not reported in the fund financial statements. Capital assets utilized by the proprietary funds are reported both in the business-type activities column of the government-wide statement of net Position and in the respective funds.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated fixed assets are recorded at their fair market values as of the date received. The District maintains a capitalization threshold of one thousand dollars with the exception of computers, digital cameras and real property for which there is no threshold. The District does not possess any infrastructure. Improvements are capitalized; the cost of, normal maintenance and repairs that do not add to the value of the asset or materially extend an assets life are not.

All reported capital assets are depreciated. Improvements are depreciated over the remaining useful lives of the related capital assets. Depreciation is computed using the straight-line method over the following useful lives for both general capital assets and proprietary fund assets:

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

<u>Description</u>	<u>Estimated Lives</u>
Buildings and improvements	25-50 years
Land improvements	20 years
Technology equipment	5 years
Vehicles	5-10 years
Audio-visual equipment	15 years
Food service equipment	10-12 years
Furniture and fixtures	7 years
Rolling stock	15 years
Other	10 years

Interfund Balances

On fund financial statements, receivables and payables resulting from short-term interfund loans are classified as “interfund receivables/payables”. These amounts are eliminated in the governmental and business-type activities columns of the statements of net Position, except for the net residual amounts due between governmental and business-type activities, which are presented as internal balances.

Accumulated Unpaid Sick Leave Benefits

Upon retirement from the school system, a certified and classified employee will receive from the district an amount equal to 30% of the value of accumulated sick leave.

Sick leave benefits are accrued as a liability using the termination payment method. An accrual for earned sick leave is made to the extent that it is probable that the benefits will result in termination payments. The liability is based on the School District’s past experience of making termination payments.

The entire compensated absence liability is reported on the government-wide financial statements.

For governmental fund financial statements the current portion of unpaid accrued sick leave is the amount expected to be paid using expendable available resources. These amounts are recorded in the account “accumulated sick leave payable” in the general fund. The non-current portion of the liability is not reported.

Budgetary Process

The District prepares its budgets on the modified accrual basis of accounting, which is the same basis as used to prepare the Statement of Revenues, Expenditures and Changes in Fund Balances – Governmental Funds.

Once the budget is approved, it can be amended. Amendments are presented to the Board at their regular meetings. Such amendments are made before the fact, are reflected in the official minutes of the Board, and are not made after fiscal year-end as dictated by law. Each budget is prepared and controlled

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

by the budget coordinator at the revenue and expenditure function/object level. All budget appropriations lapse at year-end.

The Kentucky Department of Education does not require the Capital Project Funds and Debt Service Funds to prepare budgets.

Cash and Cash Equivalents

The District considers demand deposits, money market funds, and other investments with an original maturity of 90 days or less, to be cash equivalents.

Inventories

On government-wide financial statements inventories are stated at cost and are expended when used.

On fund financial statements inventories are stated at cost. The cost of inventory items is recorded as an expenditure in the governmental fund types when purchased.

Prepaid Assets

Payments made that will benefit periods beyond June 30, 2013 are recorded as prepaid items using the consumption method. A current asset for the prepaid amount is recorded at the time of the purchase and expenditure/expense is reported in the year in which services are consumed.

Accrued Liabilities and Long-Term Obligations

All payables accrued liabilities and long-term obligations are reported in the government-wide financial statements, and all payables, accrued liabilities and long-term obligations payable from proprietary funds are reported on the proprietary fund financial statements.

In general, payables and accrued liabilities that will be paid from governmental funds are reported on the governmental fund financial statements regardless of whether they will be liquidated with current resources. However, claims and judgment, the non-current portion of capital leases, accumulated sick leave, contractually required pension contributions and special termination benefits that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they will be paid with current, expendable, available financial resources. In general, payments made within sixty days after year-end are considered to have been made with current available financial resources. Bonds and other long-term obligations that will be paid from governmental funds are not recognized as a liability in the fund financial statements until due.

Fund Balances

Fund balance is divided into five categories as defined by GASB 54 as follows:

Nonspendable: Permanently nonspendable by decree of the donor, such as an endowment, or funds that are not in a spendable form, such as prepaid expenses or inventory on hand.

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

Restricted	Legally restricted under legislation, bond authority, or grantor contract.
Committed	Commitments of future funds for specific purposes passed by the Board.
Assigned	Funds that are intended by management to be used for a specific purpose, including encumbrances.
Unassigned	Funds available for any purpose.

The Board has adopted a GASB 54 spending policy which states that the spending order of funds is to first use restricted funds, followed by committed, assigned, and unassigned fund funds.

Net Position

The Statement of Net Position presents the reporting entity's non-fiduciary assets and liabilities, the difference between the two being reported as Net Position. Net Position are reported in three categories: 1) net investment in capital assets – consisting of capital assets, net of accumulated depreciation and reduced by outstanding balances for debt related to the acquisition, construction, or improvement of the assets; 2) restricted net position – resulting from constraints placed on net position by creditors, grantors, contributors, and other external parties, including those constraints imposed by law through constitutional provisions or enabling legislation adopted by the School District; 3) unrestricted net position – those assets that do not meet the definition of restricted net position or net investment in capital assets. It is the District's policy to first apply restricted net position and then unrestricted net position when an expense is incurred for which both restricted and unrestricted net position are available.

Operating and Non-Operating Revenues and Expenses

Operating revenues are those revenues that are generated directly from the primary activity of the proprietary funds. For the School District, those revenues are primarily charges for meals provided by the various schools.

Non-operating revenues are not generated directly from the primary activity of the proprietary funds. For the School District those revenues come in the form of grants (federal and state), donated commodities, and earnings from investments.

Contributions of Capital

Contributions of capital in proprietary fund financial statements arise from outside contributions of fixed assets, or from grants or outside contributions of resources restricted to capital acquisition and construction.

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

Interfund Activity

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds and after non-operating revenues/expenses in proprietary funds. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the financial statements.

NOTE B – ESTIMATES

The process of preparing financial statements in conformity accounting principles generally accepted in the United States of America requires District’s management to make estimates and assumptions that affect reported amounts of assets, liabilities, revenues, expenditures, designated fund balances, and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

NOTE C – CASH AND CASH EQUIVALENTS AND INVESTMENTS

The District’s cash and cash equivalents are interest bearing accounts with a local depository secured by FDIC and pledged assets of the bank. Due to the liquidity nature of these accounts the carrying value is the fair market value. Investments are certificates of deposits with a local depository with a maturity greater than 90 days.

		<u>Bank Balance</u>
		<u>Demand</u>
<u>Citizens Guaranty Bank</u>		
FDIC	\$	250,000
Securities pledged to district		<u>6,337,834</u>

Capital Assets-net	<u>\$ 49,751</u>	<u>\$ (11,020)</u>	<u>\$ -</u>	<u>\$ 38,731</u>

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

Depreciation expense was not allocated to governmental functions. It appears on the statement of activities as “unallocated”.

NOTE E – BONDED DEBT OBLIGATIONS

The amount shown in the accompanying financial statements as bonded debt obligations represent the District’s future obligations to make payments relating to the bonds issued by the Estill County School District Finance Corporation aggregating \$23,911,000 and \$1,357,000 is the portion due within one year.

The District, through the General Fund (including utility taxes), Building (FSPK) Fund, and the SEEK Capital Outlay Fund is obligated to make lease payments in amounts sufficient to satisfy debt service requirements on bonds issued by the Estill County School District Finance Corporation to construct school facilities. The District has an option to purchase the property under lease at any time by retiring the bonds then outstanding. The proceeds from certain refunding issues have been placed in escrow accounts to be used to service the related debt.

The original amount of outstanding issues, the issue dates, maturity dates, interest rates, and outstanding balances, at June 30, 2014 are summarized below:

<u>Bond Issue Date</u>	<u>Original Amount</u>	<u>Maturity Date</u>	<u>Interest Rates</u>	<u>2013 Outstanding Balance</u>	<u>Additions</u>	<u>Retirements</u>	<u>2014 Outstanding Balance</u>
2007A Issue	\$ 6,275,000	1/1/2027	3.625-3.875%	\$ 4,830,000	\$ -	\$ 265,000	\$ 4,565,000
2010 BAB	5,630,000	9/1/2030	.7-5%	5,460,000		85,000.00	5,375,000
2010 QSCB	7,350,000	9/1/2027	4.94%	7,350,000		-	7,350,000
2012R	1,690,000	6/1/2024	1.0 - 2.25%	1,645,000		25,000.00	1,620,000
2003 Issue	490,000	6/1/2014	2-3.7%	60,000		60,000.00	-
2013 Issue	1,555,000	11/1/2033	1.4 - 4.25%	-	1,555,000	-	1,555,000
2004 Issue	2,350,000	6/1/2024	3.5-4.75%	180,000		90,000.00	90,000
2004R Issue	6,760,000	8/1/2016	2-3.6%	3,370,000		780,000.00	2,590,000
2007B Issue	440,000	1/1/2028	4.15-4.2%	365,000		20,000.00	345,000
2009R	\$ 460,000	3/1/2018	3.50%	428,000		7,000.00	421,000
				<u>\$ 23,688,000</u>	<u>\$ 1,555,000</u>	<u>\$ 1,332,000</u>	<u>\$ 23,911,000</u>

The District has entered into “participation agreements” with the Kentucky School Facility Construction Commission. The Kentucky Legislature, for the purpose of assisting local school districts in meeting school construction needs, created the Commission. The table following sets forth the amount to be paid by the District and the Commission for each year until maturity of all bond issues.

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

The bonds may be called prior to maturity at dates and redemption premiums specified in each issue. Assuming no issues are called prior to maturity, the minimum obligations of the District, including amounts to be paid by the Commission, at June 30, 2014 for debt service, (principal and interest) are as follows:

<u>Year Ended</u> <u>June 30</u>	<u>Principal</u>		<u>Urgent Need</u>		<u>Interest</u>		<u>Principal</u>	<u>Interest</u>
	<u>Local</u>	<u>SFCC</u>	<u>Principal</u>	<u>Interest</u>	<u>Local</u>	<u>SFCC</u>	<u>Total</u>	<u>Total</u>
2015	\$ 833,299	\$ 289,090	\$ 234,611	\$ 598,910	\$ 273,072	\$ 118,386	\$ 1,357,000	\$ 990,369
2016	862,115	298,226	242,659	589,499	245,350	108,751	1,403,000	943,600
2017	892,693	284,298	251,009	579,675	215,622	100,853	1,428,000	896,150
2018	482,891	245,322	259,787	569,187	199,666	93,600	988,000	862,454
2019	155,724	250,377	268,899	558,153	184,867	86,764	675,000	829,784
2020-2024	806,908	1,387,239	1,520,853	2,603,670	880,985	317,620	3,715,000	3,802,275
2025-2029	8,787,532	1,598,338	1,094,130	1,660,970	728,782	115,235	11,480,000	2,504,988
2030-2034	2,692,305	172,695	-	31,369	202,181	8,371	2,865,000	241,920
	<u>\$15,513,467</u>	<u>\$ 4,525,585</u>	<u>\$ 3,871,948</u>	<u>\$ 7,191,432</u>	<u>\$ 2,930,527</u>	<u>\$ 949,581</u>	<u>\$ 23,911,000</u>	<u>\$11,071,539</u>

The District sold a 2010 Qualified School Construction Bond (QSCB bond) for which they are making semi-annual payments into an escrow account. These payments are being invested and accumulating interest for which will be used to retire the bond on September 21, 2027. As of June 30, 2014 the escrow account had accumulated \$233,560.

NOTE F – CAPITAL LEASE PAYABLE

The following is an analysis of the leased property under capital lease by class:

<u>KISTA Issue Date</u>	<u>Original Amount</u>	<u>Maturity Date</u>	<u>Interest Rates</u>	<u>2013</u>			<u>2014</u>
				<u>Outstanding Balance</u>	<u>Additions</u>	<u>Retirements</u>	<u>Outstanding Balance</u>
2012	\$ 463,299	3/1/2022	2.0 - 2.625%	\$ 412,909	\$ -	\$ 52,170	\$ 360,739
2006 Issue	\$ 132,792	3/1/2016	3.3-4%	39,700		14,461	25,239
				<u>\$ 452,609</u>	<u>\$ -</u>	<u>\$ 66,631</u>	<u>\$ 385,978</u>

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

The following is a schedule by years of the future minimum lease payments under capital lease together with the present value of the net minimum lease payments as of June 30, 2014:

Year Ending 30-Jun	Principal	Interest	Total Payments
2015	\$ 56,173	\$ 8,795	\$ 64,968
2016	57,559	7,449	65,008
2017	45,582	6,041	51,623
2018	46,472	5,129	51,601
2019	47,541	4,199.00	51,740
2020-2022	<u>132,651</u>	<u>6,529</u>	<u>132,651</u>
	<u>\$ 385,978</u>	<u>\$ 38,142</u>	<u>\$ 417,591</u>

Total minimum lease payments	\$ 417,591
Less: Amount representing interest	<u>(38,142)</u>
 Present Value of Net Minimum Lease Payments	 \$ 385,978

NOTE G – RETIREMENT PLANS

Kentucky Teachers’ Retirement System

Plan Description – The Estill County School District contributes to the Teachers’ Retirement System of Kentucky (KTRS), a cost-sharing, multiple employer defined benefit pension plan. KTRS administers retirement and disability annuities and death and survivor benefits to employees and beneficiaries of employees of the public school systems and other public educational agencies in Kentucky. KTRS requires that members of KTRS occupy a position requiring either a four (4) year college degree or certification by Kentucky Department of Education (KDE).

KTRS was created by the 1938 General Assemble and is governed by Chapter 161 Section 220 through Chapter 161 Section 990 of the Kentucky Revised Statutes (KRS). KTRS issues a publicly available financial report that includes financial statements and required supplementary information for the defined benefit pension plan. That report can be obtained by writing to Kentucky Teachers’ Retirement System, 479 Versailles Road, Frankfort, Kentucky 40601 or from the KTRS web site at <http://ktrs.ky.gov/>.

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

Funding Policy – Contribution rates are established by KRS. Members are required to contribute 11.355% of their salaries to KTRS. The Commonwealth of Kentucky is required to contribute 13.105% of salaries for members hired before July 1, 2008 and 14.105% of salaries for members after July 1, 2008. The federal program for any salaries paid by that program pays the matching contribution 14.605%.

Medical Insurance Plan

Plan description – In addition to the pension benefits described above, Kentucky Revised Statute 161.675 requires KTRS to provide post-employment healthcare benefits to eligible members and dependents. The KTRS Medical Insurance benefit is a cost-sharing multiple employer defined benefit plan. Changes made to the medical plan may be made by the KTRS Board of Trustees, the Kentucky Department of Employee Insurance and the General Assembly.

To be eligible for medical benefits, the member must have retired either for service or disability. The KTRS Medical Insurance Fund offers coverage to members under the age of 65 through the Kentucky Employees Health Plan administered by the Kentucky Department of Employee Insurance. Once retired members and eligible spouses attain age 65 and are Medicare eligible, coverage is obtained through the KTRS Medicare Eligible Health Plan.

Funding policy –In order to fund the post-retirement healthcare benefit, four and one half percent (4.5%) of the gross annual payroll of members before July 1, 2008 is contributed. Two and one quarter percent (2.25%) is paid by member contributions and three quarters percent (.75%) from state appropriation and one and one half percent (1.50%) from the employer. Also, the premiums collected from retirees as described in the plan description and investment interest help meet the medical expenses of the plan.

The Estill County Schools' total payroll for the year was \$14,194,809. The payroll for employees covered under KTRS was \$10,819,723. For the year ended June 30, 2014, the Commonwealth contributed \$1,262,335 to KTRS for the benefit of our participating employees. The School district's contributions to KTRS for the year ending June 30, 2014 were \$185,189, which represents those employees covered by federal programs.

The District's required contributions (both withholding and match) for pension obligations to KTRS for the years ended June 30, 2014, 2013, and 2012 were \$1,557,719, \$1,686,526, and \$1,719,145, respectively.

County Employees Retirement System

Employees who work an average of 100 hours per month participate in the County Employees Retirement System of Kentucky (CERS), a cost sharing, multiple-employer public employee retirement system created by and operating under Kentucky Law.

The County Employees Retirement System covers substantially all regular non-certified full-time employees of the school District. The plan provides for retirement, disability and death benefits. CERS issues a publicly available financial report that includes financial statements and required

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

supplementary information. The report may be obtained in writing from the County Employee Retirement System, 1260 Louisville Road, Perimeter Park West, and Frankfort, Kentucky, 40601.

For participating employees who established an account prior to July 1, 2008, they contribute 5% of the creditable compensation. For employees hired after July 1, 2008, they contribute 6% of the creditable compensation. Employer contribution rates are intended to fund the normal cost on a current basis plus one percent (1%) of un-funded past service costs per annum plus interest at the actuarial assumed rate. The Board of Trustees of the Kentucky Retirement Systems determines such contribution rates each biennium. The current District contribution rate for employees is 18.89%. The District contributed \$598,782 of the employee's compensation during the fiscal year ended June 30, 2014.

The District's required contributions (both withholding and match) for pension obligation to CERS for the fiscal years ended June 30, 2014, 2013, and 2012 were \$757,968, \$757,968, and \$747,305 respectively.

Recently Issued Accounting Standards

GASB Statement No. 68, Accounting and financial Reporting for Pensions, will require that unfunded portions of future pension benefit obligations shall be recorded as a liability of governments. This pronouncement will be mandatory for fiscal periods beginning after June 15, 2015. Although the data is not available from the Kentucky Teachers Retirement System or the County Employees Retirement System at this time, we believe that this implementation will have a material effect on future financial statements.

NOTE H - CONTINGENCIES

The District receives funding from Federal, State and Local governmental agencies and private contributions. These funds are to be used for designated purposes only. For government agency grants, if the grantor's review indicates that the funds have not been used for the intended purpose, the grantors may request a refund of monies advanced or refuse to reimburse the District for its disbursements. The amount of such future refunds and un-reimbursed disbursements, if any, is not expected to be significant. Continuation of the District's grant programs is predicated upon the grantors' satisfaction the funds provided are being spent as intended and the grantors' intent to continue their program.

NOTE I - LITIGATION

The Estill County School District currently has no pending litigation.

NOTE J – INSURANCE AND RELATED ACTIVITIES

The District is exposed to various forms of loss of assets associated with the risks of fire, personal liability, theft, vehicular accidents, errors and omissions, fiduciary responsibility, illegal acts, etc. Each of these risk areas is covered through the purchase of commercial insurance. The District has purchased certain policies which are retrospectively rated and includes Workers' Compensation insurance.

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

NOTE K – RISK MANAGEMENT

The District is exposed to various risks of loss related to illegal acts, torts, theft/damage/destruction of assets, errors and omissions, injuries to employees, and natural disasters. To obtain insurance for workers’ compensation, errors and omission, and general liability coverage, the District purchased commercial insurance policies.

The District purchases unemployment insurance through the Kentucky School Districts Insurance Trust Unemployment Compensation Fund; however, risk has not been transferred to such fund. In addition, the District continues to carry commercial insurance for all other risks of loss. Settled claims resulting from these risks have not exceeded commercial coverage in any of the past three fiscal years.

NOTE L – DEFICIT FUND AND OPERATING BALANCES

The following funds had an operating deficit at the end of the fiscal year causing a reduction in the fund balance.

<u>Fund</u>	<u>Reduction in Fund Balance / Net Position</u>
Business-Type Activities	\$ (93,460)
General Fund	(472,638)
FSPK Fund	(17,096)
School Food Service	(93,460)
Private Purpose Trust	(2,872)
Capital Outlay Fund	(63,525)
School Activity Fund	\$ (4,820)

NOTE M - COBRA

Under COBRA, employers are mandated to notify terminated employees of available continuing insurance coverage. Failure to comply with this requirement may put the school district at risk for a substantial loss (contingency).

NOTE N – TRANSFER OF FUNDS

The following transfers were made during the year:

<u>From Fund</u>	<u>To Fund</u>	<u>Amount</u>	<u>Purpose</u>
General	Special Revenue	\$ 34,667	KETS Matching Funds
Capital Outlay	General	212,085	Operations
Capital Outlay	Debt Service	68,107	Debt Payments
FSPK	Debt Service	<u>1,055,110</u>	Debt Payments
		<u>\$ 1,369,969</u>	

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

NOTE O – ON-BEHALF PAYMENTS

The financial statements include payments made by the State of Kentucky on – behalf of the Estill County School District for teacher’s retirement, health insurance, life insurance, administrative fees, technology, debt service, and state operated vocational schools where applicable. The amounts were recorded, but not budgeted, within the General, Debt Service and School Food Services Funds. The amounts recorded for both revenues and expenditures (expenses) are \$3,420,077 for the General Fund, \$876,106 for Debt Service Fund and \$102,476 for the School Food Service Fund.

NOTE P – RESTRICTED FUND BALANCES

The following funds had restricted fund balances as of June 30, 2014:

<u>Fund</u>	<u>Amount</u>	<u>Purpose</u>
Construction	\$ 461,671	Future Construction
Debt Service	233,560	Debt Service
FSPK	711,708	School Facilities Construction Commission Requirement
Permanent	1,374	Trust Agreement
Proprietary	\$ 278,456	School Food Service

NOTE Q – PRIOR PERIOD ADJUSTMENT

Due to the Court ordered assessment of the KSBIT liability, the liability was reduced creating an understatement of Net Position. Also due to an adjustment to prepaid expense and a related liability, the fund balance was understated. They prior period adjustments are as follows:

	<u>Governmental Activities</u>
Net Position July 1, 2013	\$15,046,954
Prior Period Adjustment	175,996
	<hr/>
Restated Net Position July 1, 2013	<u>15,222,950</u>

	<u>General Fund Balance</u>
Fund Balance July 1, 2013	\$3,520,690
Prior Period Adjustment	129,882
	<hr/>
Restated Fund Balance July 1, 2013	<u>3,650,573</u>

NOTE R – SUBSEQUENT EVENTS

The District has evaluated subsequent events through November 10, 2014, the date of the audit report.

ESTILL COUNTY SCHOOL DISTRICT
NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS
For the Year Ended June 30, 2014

NOTE A – BASIS OF PRESENTATION

The accompanying schedule of expenditures of federal awards includes the federal grant activity of the Estill County School District and is presented on the accrual basis of accounting. The information in this schedule is presented in accordance with the requirements of OMB Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations. Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the basic financial statements.

NOTE B – FOOD DISTRIBUTION

Non-monetary assistance is reported in the schedule at the fair value of the commodities disbursed. At June 30, 2014, the District had received food commodities totaling \$76,311.

State Committee for School District Audits
Irvine, Kentucky

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, and the audit requirements prescribed by the Kentucky State Committee for School District Audits in the Auditor Responsibilities and State Compliance Requirements sections contained in the Kentucky Public School Districts’ Audit Contract and Requirements, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Estill County School District, as of and for the year ended June 30, 2014, and the related notes to the financial statements, which collectively comprise Estill County School District’s basic financial statements, and have issued our report thereon dated November 10, 2014.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Estill County School District’s internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness Estill County School District’s internal control. Accordingly, we do not express an opinion on the effectiveness of Estill County School District’s internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity’s financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Estill County School District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

We noted certain matters that we reported to management of the Estill County School District, in a separate letter dated November 10, 2014.

In addition, the results of our tests disclosed no material deficiencies as it relates to specific state statutes or regulations identified in the audit requirements prescribed by the Kentucky State Committee for School District Audits included in the Kentucky Public School Districts' Audit Contract and Requirements or Appendices.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR
PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE
REQUIRED BY OMB CIRCULAR A-133**

To the Estill County Board of Education and
State Committee for School District Audits
Irvine, Kentucky

Report on Compliance for Each Major Federal Program

We have audited Estill County School District's compliance with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* that could have a direct and material effect on each of Estill County School District's major federal programs for the year ended June 30, 2014. Estill County School District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of Estill County School District's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and the audit requirements prescribed by the Kentucky State Committee for School District Audits in the Auditor Responsibilities and State Compliance Requirements sections contained in the Kentucky Public School Districts' Audit Contract and Requirements. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Estill County School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of Estill County School District's compliance.

Opinion on Each Major Federal Program

In our opinion, Estill County School District, complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2014.

Report on Internal Control Over Compliance

Management of Estill County School District, is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered Estill County School District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Estill County School District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133. Accordingly, this report is not suitable for any other purpose.
